### ABOUT THE STATE.

Items of Interest Gleaned From Our  
Exchanges.

E. R. Fihn of Springfield was on the  
stamp for Congressman Littlefield in  
Maine last week.

The Rev. J. B. Conley has begun his  
labors as pastor of the Congregational  
church at Guilford.

The Rev. A. J. Denton of Attleboro,  
Mass., has accepted a call to the Advent  
church at Brattleboro.

An Italian fruit store in Morrisville  
was closed last week and the proprietor  
has left town, leaving several bills un-  
paid.

All the milk retailers of Chester have  
advanced the price of milk to five cents  
a quart, taking effect September 1. For  
the past two years the price has been  
four cents.

The national society of United States  
States Daughters of 1812, state of Ver-  
mont, will hold its autumn meeting next  
Thursday afternoon with Mrs. H. F.  
Weatherhead of Brattleboro.

Pearl Withers of Middlebury, who  
went to Europe about a year ago, and  
who was supposed to have been drowned  
on the steamer British King, has been  
heard from at Sydney, Australia. He  
writes that he is going on to South  
America and then home.

The statement made in several Ver-  
mont papers that Miss Gertrude Stewart  
of Rutland is the first Vermont woman  
to be sent into the foreign missionary  
field is said to be incorrect. There have  
been others, among them a daughter of  
Doctor Ross of Middlebury.

Farmers in Bennington county report  
an average corn crop, the warm weather  
in late August having helped the fields  
to recover from the setback earlier in  
the summer. Potatoes in the western  
part of the county are maturing badly  
and the crop will be very light. The grain  
crop is good.

A. L. Erickson of Norton has an apple  
tree in his garden, which last spring  
blossomed only on one-half being leaf-  
less and to all appearances dead. Within  
the past few days the barren side has  
leaved and blossomed out, and the tree  
now presents the picture of one-half  
bearing fruit and the other half in  
bloom.

Mr. and Mrs. Stephen E. Taft of Sut-  
ton celebrated their golden wedding an-  
niversary June 26. A picnic dinner was  
served to about thirty relatives and  
friends. Mr. and Mrs. Taft have no chil-  
dren living, their two daughters having  
been dead many years, and but one  
grandson, Carl Farmer, of Hanover, N.  
H., who with his wife was present.

Miss Edith H. Willis, formerly of  
South Tisbury, was recently appointed  
editor of The School Physiology Jour-  
nal of Boston. In this position Miss  
Willis succeeds the late Mrs. Mary H.  
Hunt, celebrated as the mother of sci-  
entific temperance instruction in the  
common schools of this country. Miss  
Willis was Mrs. Hunt's assistant and  
valued confidant for some years.

The Rutland city council has taken  
a step toward ridding the city of one of  
its most offensive nuisances in appoint-  
ing a committee at the suggestion of  
Hearings against the keeping of swine within  
the city limits. Doctor Miner says that  
although several of the pens which have  
been complained of were public nuis-  
ances, they were within the ordinances  
governing them and he was powerless  
to remove them.

The Bennington village schools open-  
ed for the fall term with an enrollment  
of 450 pupils, the largest number, by  
50, in recent years. The registration  
of the high school is the largest it ever  
had. There are 130 registered in the  
seventh ward building, 42 in the kinder-  
garten, and in some of the grade rooms  
there is an attendance of 50. Although no  
complete records has yet been made,  
the excellent showing of the morning of  
the first day is an assurance of a suc-  
cessful and prosperous school year.

Starving to Death.  
Because her stomach was so weakened  
that useless drugging that she could not  
eat, Mrs. Harry H. Walters, of St. Clair  
St., Columbus, O., was literally starving  
to death. She writes: "My stomach was  
so weak from useless drugging that I could  
not eat, and my nerves so wrecked that  
I could not sleep; and before I was  
given up to die I was induced to try  
Electric Bitters; with the wonderful  
result that improvement began at the one  
and a complete cure followed." Best  
health tonic on earth. 50c. Guaranteed  
by Red Cross Pharmacy.

"But," said the old lawyer, "why do  
you admit that your client will lose  
his case? Have you exhausted all the  
means at your disposal?"

"No," interrupted the young lawyer,  
"but I've exhausted all the means at  
his disposal."—American Spectator.

"Cheer up," said Krotzer, "there are  
fish in the sea good as ever were  
caught."

"There must be better," replied  
Crabbe, "because the fishermen insist  
that the biggest ones always get  
away."—Philadelphia Ledger.

### Blackbottle Fly.

The blackbottle fly is purely a meat  
fly, subsisting altogether upon meat  
and offal and laying its eggs in decom-  
posed animal matter.

Gallberry, an Arabian giant who was  
brought to Rome by the Emperor Clau-  
dius to serve in the imperial body-  
guard, was nine feet nine inches high.  
Pilius says that he was the tallest man  
ever seen in Rome.

Welshing Live Fish.  
A visitor to an aquarium who had  
wondered how they managed to get  
the weight of a live fish learned that  
that was really a very simple thing to  
do. The fish is put into a pail of wa-  
ter, which is weighed with the fish in  
it. Then the fish is taken out, and  
pail and water are weighed without it.

It is said that the word "flapdoodle"  
was first used by Captain Marryat in  
"Peter Simple" where it was made to  
mean "the stuff they feed fools on."

Helioprote.  
The name of the helioprote comes  
from two Greek words signifying  
"twining toward the sun." It has  
long been a belief that the flower of  
the helioprote turns, with the advanc-  
ing day, so as to face the sun. In  
some species of this plant this curious  
practice is noticed.

### HAIR NATURALLY ABUNDANT.

When it is Free of Dandruff, It Grows  
Luxuriantly.

Hair preparations and dandruff cures,  
as a rule, are sticky or irritant affairs  
that do no earthly good. Hair, when not  
diseased, grows naturally, luxuriantly.  
Dandruff is the cause of nine-tenths of  
all hair trouble, and dandruff is caused  
by a germ. The only way to cure dandruff  
is to kill the germ, and, so far, the only  
hair preparation that will positively  
destroy the germ is the New Herpelide—  
absolutely harmless, free from grease,  
sediment, dye matter or dangerous drugs.  
It always itching instantly, makes hair  
glossy and soft as silk. "Destroy the  
cause, you remove the effect." Sold by  
leading druggists. Send 10c in stamps for  
sample to The Herpelide Co., Detroit,  
Mich.
